

## **Latest situation of COVID-19 (as of 5 August 2022)**

The Centre for Health Protection (CHP) of the Department of Health (DH) today (5 August) announced the latest epidemic situation of COVID-19. As of 0.00am, 5 August 2022, the CHP was investigating 4223 additional locally acquired cases tested positive for the SARS-CoV-2 virus, including 1422 cases tested positive by nucleic acid tests and verified 2801 cases tested positive by rapid antigen tests (RATs) in the past 24 hours<sup>Note 1</sup>. Separately, 205 additional imported cases were reported, including 178 cases tested positive by nucleic acid tests and 27 cases tested positive by RATs. So far, Hong Kong has recorded a total of 829251 and 547115 cases tested positive by nucleic acid tests and RATs respectively for the SARS-CoV-2 virus.

Since the 5th wave (31 December 2021), 816620 cases and 547115 cases were tested positive by nucleic acid tests and rapid antigen tests respectively.

In the recent 7-day period from 30 July to 5 August 2022, an average of 1753.4 cases by nucleic acid tests were reported per day, as compared with 1817.0 cases per day reported in the previous 7-day period from 23 to 29 July 2022 (Figure 1(i)).

**Figure 1(i): Daily number and 7-day moving average of cases tested positive for SARS-CoV-2 virus by nucleic acid tests in 2022**<sup>Note 2</sup>

**Note 1:**

Starting from 7 June 2022, only cases reported via the "Declaration System for individuals tested positive for COVID-19 using Rapid Antigen Test" which had been verified with positive nucleic acid test results will be announced. These include RAT positive cases reported in the past few days.

**Note 2:**

- Re-positive cases are excluded in Figure 1(i).
- As announced by the Government on 15 February 2022 ([https://www.news.gov.hk/eng/2022/02/20220215/20220215\\_172336\\_940.html?type=category&name=covid19&tl=1](https://www.news.gov.hk/eng/2022/02/20220215/20220215_172336_940.html?type=category&name=covid19&tl=1)) and 25 February 2022 (<https://www.info.gov.hk/gia/general/202202/25/P2022022500816.htm>), positive cases detected by the Hospital Authority and testing contractors are now directly deemed as confirmed cases.
